

Expedited MRI for the Injured Worker

Experience the Future of Diagnostic Imaging!

At AIM we are dedicated to be the leading facilitator of choice for patients, doctors, communities and government bodies needing our help. Immediate access to a wide Open Bore MRI scanner which accommodates claustrophobic and larger patients (up to 550lbs).

From the moment the injured worker arrives, one will experience first class health care in our five star Vancouver MRI facility. We are committed to providing the highest quality medical care in a comfortable, private, safe environment. When it comes to ones health, knowledge is empowering and time is of the essence.

We provide physicians and patients same day appointments and same day reports. Our team of on-site radiologists will issue the final report, and provide a copy of the examination immediately.

AIM radiologists have assembled unique equipment for generating and previewing images with the capability to advance the field of diagnostic imaging.
